

*United States Bankruptcy Court
Eastern District of Wisconsin
Office of the Clerk*

USER TECHNOLOGY REQUIREMENTS FOR CASE MANAGEMENT/ ELECTRONIC CASE FILES(CM/ECF)

Bankruptcy cases and related documents are currently being filed via the internet in the prototype districts of California Southern, Georgia Northern, Arizona, Virginia Eastern, and New York Southern.¹ Other courts will accept electronically filed documents in the near future.

Attorneys in the prototype districts are using the hardware and software listed below to file petitions and other documents:

- Netscape browser version 3.0 or higher (128 bit encryption is recommended);
- a computer capable of running Netscape browser, such as one using a Windows, Windows95, Macintosh, Linux or Solaris operating system;
- a word processor to create documents;
- Adobe Acrobat 3.0 or higher to convert documents from a word processor format to portable document format (PDF);
- a modem supporting a transfer rate of 28.8 kbs or higher (56 kbs is recommended);
- Internet access through an Internet service provider using Point to Point Protocol (PPP);
- access to a scanner if paper documents need to be imaged and sent to the court.

¹ <<http://www.casb.uscourts.gov/>> The Southern District of California's web site lists attorneys that have agreed to share information regarding the software they are using to file documents electronically. The attorneys' names and contact information can be found in a document listing Frequently Asked Questions.
